

INFANT ANTONY SHELTON J S

Full Stack Developer

To get associated with the organization, explore my full potential and to show my passion towards

ZOHO CORPORATION (JUNE 2018 – JULY 2019)

Member of Technical Staff

Store Layer – Implemented store layer for less server call and client-side data management. Used REST Architecture to impose API compatibility

UI Components – Created reusable components using best Design Patterns and OOPs, thus removed coupling between business and design problems

Front End – Managed front end for the team Vulnerability Manager Plus

GOPAL MADISON (JULY 2019 – PRESENT)

One and Only Programmer

Full Automation - Created an automation software to generate trade on an account instantly based on different strategies, created using different indicators

Strategy Editor and Tester - Created a strategy editor to run user defined strategies on live and simulated market conditions

Multi-order - Created an extension for allowing a person to trade on stocks in multiple accounts concurrently

Trade Call - A simple trade call generator for the person to take the trades we recommend

PRINCE SHRI VENKATESHWARA PADMAVATHY ENGINEERING COLLEGE

CHENNAI (2014 – 2018)
